PROFILE

Abilities to grow and secure a position where I can efficiently contribute my skills to the organization and build my professional career.

SKILLS

Flutter	HTML
Node.js	Express.js
PostgreSQL	React
java	Firebase

PROFESSIONAL EXPERIENCE

Graduate Apprentice C-DAC Thiruvananthapuram	present
--	---------

PROJECTS

Manipulated Image and Video Detection	2023
--	------

Video and image manipulation become a major concern in recent years due to the widespread use of digital media and advances in editing software.

SIGN UP!	2024
-----------------	------

This project is a Flutter application that demonstrates a simple login functionality using a SQL database for user authentication.

Pet adoption app design	2025
--------------------------------	------

The Pet Adoption App provides a simple and user-friendly interface for pet lovers to browse and adopt pets. The app features a **Login Page** for secure access, a **Forgot Password Page** for password recovery, and a **Profile Page**.

Task mangement app	present
---------------------------	---------

A simple and modern sign-in screen with input fields for username and password, a "Forgot Password?" option, and a login. A reset password screen with fields for username, along with a "Reset Password" button.

Modelshop work flow management(MS Flow)	present
--	---------

The web platform is developed using Node.js, React, and PostgreSQL, ensuring a robust and scalable backend. The mobile application is built with Flutter.

Leave Management System	2025
--------------------------------	------

I am currently developing a **Leave Management System** using **Flutter for the frontend** and **Node.js with PostgreSQL for the backend**.
